Dear all members of the Leuva Patidar Samaj of London

We just wanted to say a huge thank you and tell you how amazing we think you are for raising £1576 from your dinner and dance fundraiser. Thank you all so much for the support! I hope the event was brilliant as the pictures looked!! We appreciate all the hard work that went into the event and thank everyone who came and supported it as the total raised is amazing!! I am glad the event was a huge success.

Please accept this letter as the official receipt of your donation.

The money you've raised is so important because right now, there are 3.8 million people in the UK with diabetes, and another 630,000 people who have the condition but don't even know it yet. In London alone it is estimated that over 500,000 people are living with diabetes.

We are the leading UK charity that cares for, connects with and campaigns alongside people with and at risk of diabetes. But we can't do that without people like you.

The money you've raised means people with diabetes can keep getting the information, advice and support they need, we can keep campaigning for better care, and our scientists can keep finding new ways to treat diabetes, prevent it and one day cure it.

We promise to put your money to the best possible use. If you would like to find out more about our work, or other great fundraising ideas, we would love to hear from you. You can contact your local fundraiser Claire on fundraising.london@diabetes.org.uk or call 01372 720 148.

Thank you all so much for helping to change the lives of people with diabetes.

Yours sincerely
